Gloeckner

FLOWER SEEDS

1938

WE take pleasure in presenting to the Florists a condensed seed list of the varieties of flower seeds in most general use by the trade.

We have carefully selected the best varieties in their particular class and it has been our aim to list only the best where there are several varieties of a similar color. Therefore, you may select the color you desire or the type you need and avoid the element of risk in wrong selection.

This catalog will always be kept current by constantly changing to new types as they are tested to warrant listing.

The name "Gloeckner" has long been associated with the seed trade. We wish to identify it as a standard of quality for many years to come. To accomplish this, a consistent year after year supply of high quality seed giving uniform results must be delivered.

We shall use every effort to supply such seed.

15 East 26th Street, "At Madison Square", New York

Telephones: LExington 2-4994 - 4999

FROM WORLD WIDE SOURCES

It is necessary to procure types, varieties and colors not from one spot on this world of ours, but from many remote corners.

It may be a great seedsman here in America or some obscure little grower in far off Africa who grows this or that a little better.

Wherever this better type or colors may be had it is, and has been our aim to check and recheck across the world, to procure from World Wide Sources better types, Strain and Colors for your use.

BUSINESS TERMS

2% 10 days 60 days net

Prices in this Catalogue are subject to change without notice.

All goods are offered subject to Crop Failures, Shortage or other causes beyond our control, and to being unsold on receipt of order.

The prices in this catalog are for the trade only. For your own protection do not loan this catalog to anyone not entitled to Florists or Wholesale prices.

Unknown correspondents desiring to open an account are requested to furnish three trade references with whom they have had credit relations.

We, Fred C. Gloeckner & Co., Inc., give no warranty, expressed or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, and will not be responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Siter's Rainbow Strain Cineraria awarded first prize
Philadelphia Flower Show, 1936 and 1937

C I N E R A R I A

"Siter's Rainbow Strain"

(The Commercial Cineraria)

This new commercial Cineraria carries immense flower heads, is compact in growth, with small round leaves which require little room. These characteristics make it extremely profitable to grow. The medium large flowers in colors ranging from the bright eyed types, to the finer pastel shades, surpass anything previously introduced and are the outstanding feature of this strain. It is sure to please your most discriminating clientele and we are proud to offer this as a "Gloeckner introduction."

ORIGINATOR'S PACKETS, \$2.00 EACH

PETUNIAS

(ALL-DOUBLE)

(Double Flowered Strains)

Victorious Mixed (Mixed Dwarf, all double, Giant fringed). This is the first Petunia we have ever known to produce 100 per cent double flowers. This strain has undergone thorough tests and has come through with colors flying. Produces just what the description implies—"100% All Double."

Tr. Pkt., \$2.00 3 Tr. Pkts., \$5.00 1/64 oz., \$6.00 1/32 oz., \$11.00

World Beauty Dwarf. (Rosy Carmine) All Double. Beautiful large Carmine-Pink flowers, finely fringed, particularly desirable for pot plants and bedding.

Tr. Pkt., \$2.00 3 Tr. Pkts., \$5.00 1/64 oz., \$6.00 1/32 oz., \$11.00

All Double White Extra dwarf all double flowers. This is equalled in dwarfness to our Victorious and World Beauty strains.

RECENT INTRODUCTIONS

Petunia Giants of California

Supreme Strain

(Bodger)

The well known Giants of California type, with very large ruffled, shallow open throated flowers in a strain of rose and pink shades freely produced on strong growing plants which may be as much as two feet tall by the end of the season. It is an excellent bedding variety as well as a fine window box type.

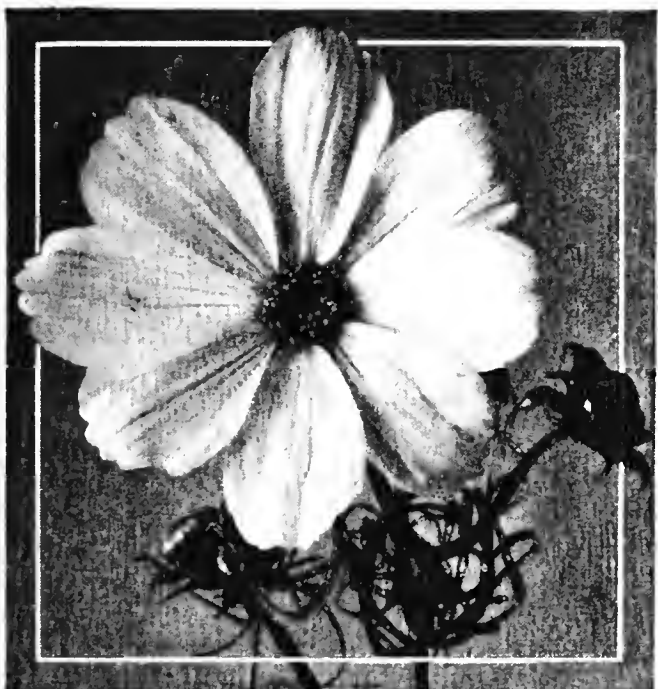

Tr. pkt., \$1.00

Cuphea Firefly

Dwarf, compact, neat in habit, and showy for modern gardens. Firefly has all the characteristics needed in a dwarf, compact plant. The flowers are small and delicately formed, fiery cerise red in color, and are freely produced on compact plants which reach a height of about 10 inches. The general effect of a plant when in full bloom is a ball of fire, recommending itself as a subject for the rockery, for window boxes, for pots, or as a border or edging variety. It is a tender annual flowering readily in twelve to fourteen weeks from seed, and blooms profusely throughout the summer months.

Tr. pkt., .50c

Cosmos Sensation Pinkie

Cosmos Sensation Pinkie and Purity (Bodger)

The Sensation type of Cosmos is today a favorite for cut flower use. The flowers, of immense size, 4 to 5 inches or more in diameter, with broad heavy fluted petals which slightly overlap, are carried on very long strong stems and are freely produced on plants which reach a height of 3 to 4 feet and have a fairly heavy growth of foliage. The flowers are produced within 8 to 10 weeks from the time seed is sown. While flowers are large enough for ordinary use, some prefer to disbud for even larger blooms. Pinkie is the delightful rose pink shade found in the popular mixture. Purity is the glistening white also found in the mixture.

Marigold Gigantea Sunset Giants

(Bodger)

Marigold Gigantea Sunset Giants

MARIGOLD SUNSET GIANTS have the largest known flowers in the MARIGOLD group, averaging 5 ins. and some flowers attaining a size of 7½ ins. across; they are produced in great profusion; instead of the usual MARIGOLD odor these flowers have a definitely sweet fragrance. They are loosely formed, very full centered, with broad, heavy petals gracefully overlapping to make a flower of great depth and even larger than Dahlia Flowered Zinnias. SUNSET GIANTS is a mixture ranging from deep orange through golden orange, deep golden yellow, light yellow, lemon yellow, and a delightful new shade of primrose. The strain comes from 60 to 65 per cent. double and comes in flower in July with other African marigolds.

Tr. Pkt., 50c 1 oz., \$ 2.50

MARIGOLD DWARF FRENCH DOUBLE HARMONY

HARMONY is in a class with Gold Medal winners. It is of a very charming and distinct type. The flowers are quite different from any other Marigold, Scabiosa-like in formation with tubular deep orange center petals flanked by broad velvety dark maroon-brown guard petals. The plants are dwarf, about a foot high, compact, exceedingly free blooming, and extremely early. We have had reports of its being in full flower in western New York on July 1st, which is very early for Marigolds. It comes 100% true to type, color and habit.

Tr. Pkt., 35c 1 oz., \$1.25

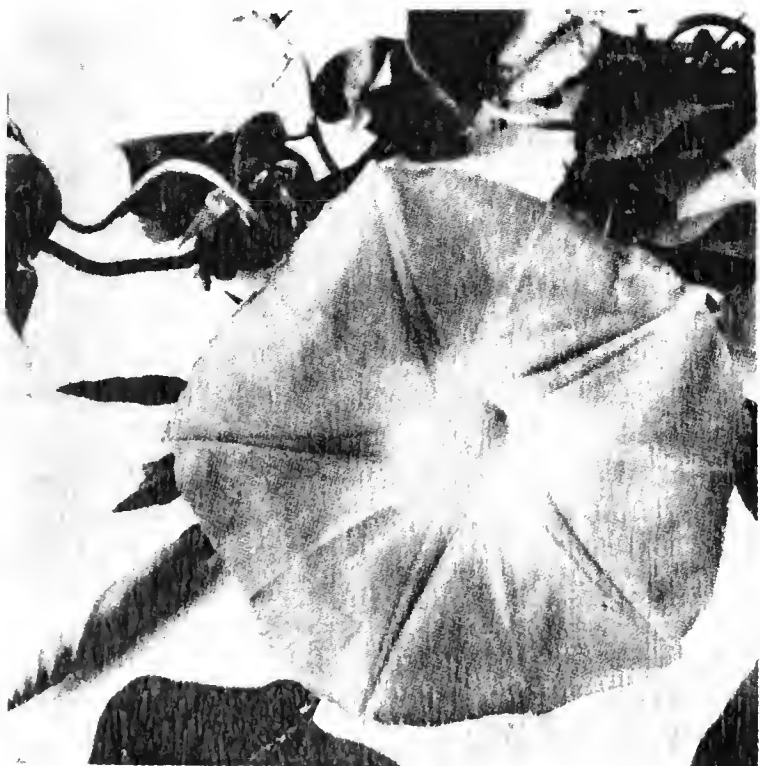

Marigold Harmony

IPOMEA HEAVENLY BLUE IMPROVED CLARK'S MAMMOTH BLUE MORNING GLORY

Clark's Strain will need no introduction. It is the earliest flowering variety, makes a sparse growth of foliage and is heavily covered with flowers. The color is a deep intense blue, shading lighter toward the center, the flowers are large and freely produced, and the plants do not make the rank growth characteristic of Heavenly Blue but go into flower early in the season, and continue throughout the summer months. It is a much earlier flowering strain, and among the most notable of its characteristics, the flowers remain open until late in the afternoon, being still open at six o'clock in the evening on cloudy days.

RECENT INTRODUCTIONS

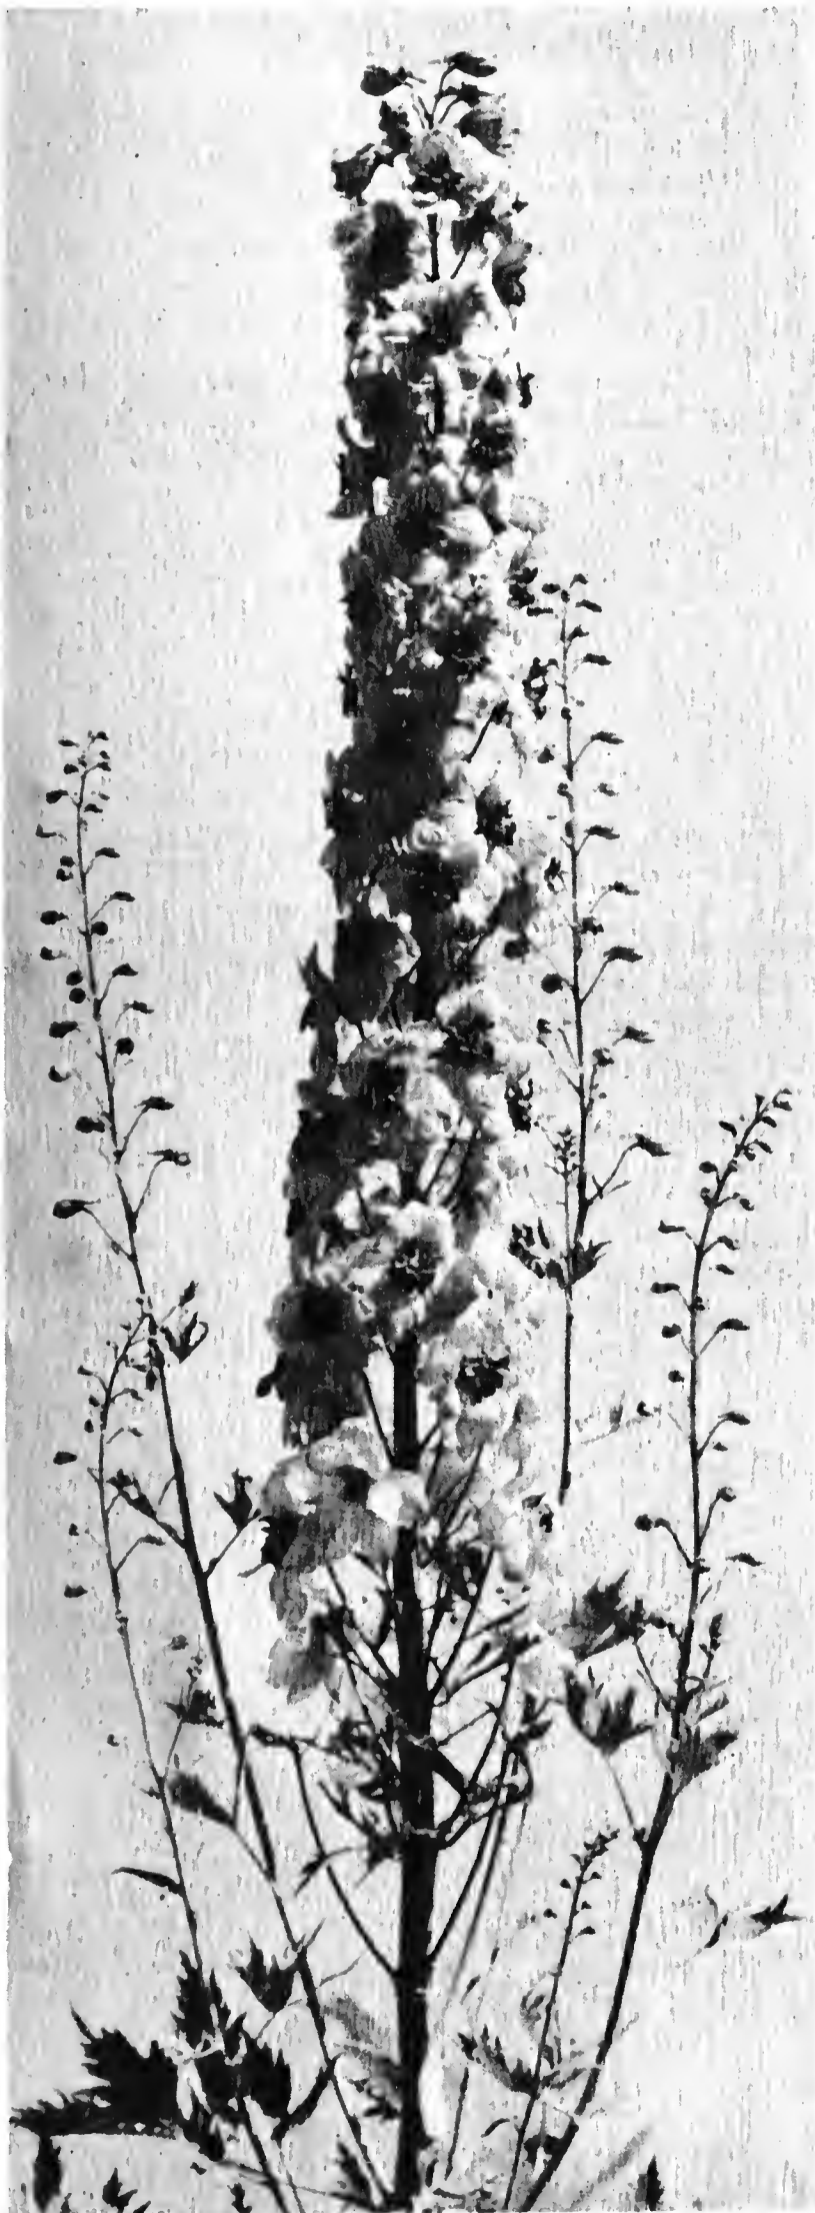

DELPHINIUM PACIFIC STRAIN

(Vetterle & Reinelt)

This is the finest strain of Delphinium yet introduced. From our personal observations in the field, this is and will prove the leader in Delphinium of the better types.

The flowers are immense size, well set on strong straight stems. They do not shatter and are 60% to 80% mildew resistant. We offer these Delphinium with confidence and pleasure.

CHRYSANTHEMUM SEGETUM "ZEBRA"

Annual Chrysanthemums are profitable annuals, being modest in their requirements and easy to grow. They bloom continuously. "Zebra" is the first definite two coloured variety in the segetum class. The tips of the petals of these medium-sized blooms, 2 ins. across, are mahogany red encircling brilliant yellow. A gay combination of colours peculiarly attractive. The colour contrast is considerably increased by means of a dark disc. Chrysanthemum segetum "Zebra" is suitable for borders and edgings on account of its dwarf and spreading growth and is valuable for cutting.

RECENT INTRODUCTIONS

CYCLAMEN SEED

(Gloeckner's)

This strain, which is produced by one of the foremost Cyclamen Specialists in Europe, is considered a long step forward in the introduction of new colors.

In offering this strain to the trade, we are introducing new pastel shades of decidedly different colors. We feel that new colors are vitally necessary if renewed interest is to be had in the production and use of Cyclamen.

We have placed an asterisk beside the colors we consider the better of the new shades, the standard shades are also included and are considered an exceptional strain.

and RECENT INTRODUCTIONS

Four Outstanding Antirrhinums of Merit for Outdoor Planting

ANTIRRHINUM — NANUM GRANDIFLORUM (Semi Dwarf)

Purple Eclipse (Hurst) — (New). Deep glowing Ruby Purple. Flowers well formed on strong symmetrical spikes. Pkt., 50c

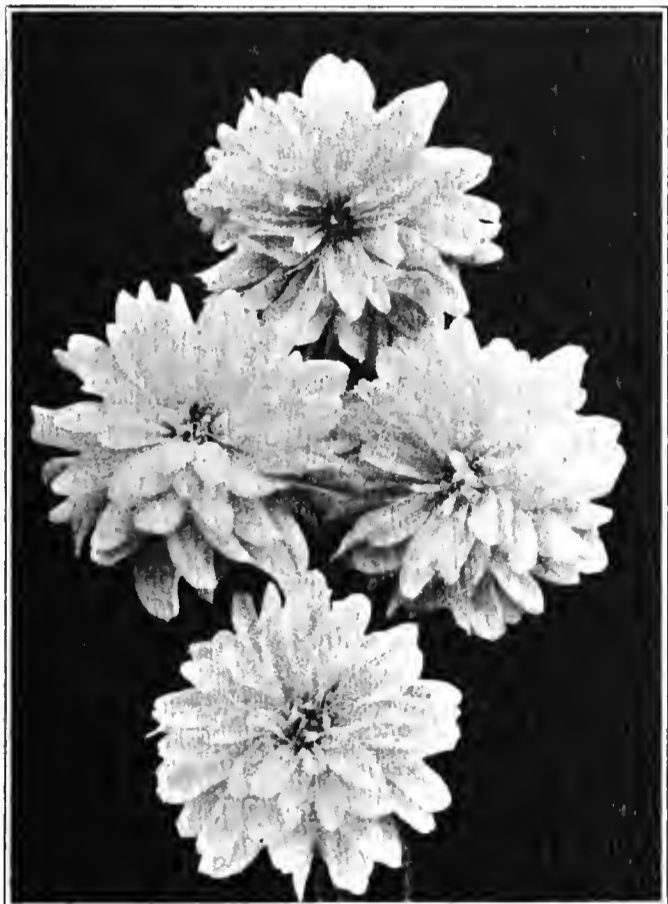

St. George (Hurst)—(New). Beautiful shade Orange Cerise. Distinct from all other varieties. Pkt., 35c

Royal Rose (Hurst)—(New). Deepest and richest Rose imaginable. Must be seen to be fully appreciated. Pkt., 35c

Royal Cerise (Hurst)—(New). This bright cerise carmine Antirrhinum will, we are certain, quickly displace others of similar color in the Nanum Grandiflorum class. It is of the same habit as "St. George" and "Royal Rose." The strong spikes are thrown well above the foliage and the large well-formed flowers are ideally placed. Pkt., 50c

ANTIRRHINUM ROYAL CERISE

Leptosyne, "Golden Rosette"

Leptosyne Golden Rosette

This double form of *Leptosyne Stillmanni* is sure of a welcome from all amateur and professional flower growers. It is of easy culture and will "succeed almost anywhere."

As will be seen from the accompanying photograph, the flowers are of perfect rosette form.

The color is bright butter yellow and the blooms are produced in the greatest possible profusion.

As a cut flower **Golden Rosette** will be found admirable and it is difficult to think of its equal in "yellow annuals."

This *Leptosyne* may be raised as a half hardy annual by sowing early in boxes or it may be treated as a hardy annual and sown in open ground.

Golden Rosette flowers within ten weeks of sowing and blooms throughout the summer. Pkt., 50c

Zinnia Linearis

The most unusual and interesting of the newer Zinnias is the little dwarf variety, *Linearis*. The flowers, which are single, are a lovely shade of golden orange, with a delicate lemon yellow stripe through each petal, while the center is dark brown in the young flowers, turning golden orange as the pollen develops. It is extremely early blooming, commencing to flower when the plants are about 6 inches tall and keeping on right through the season until the late frosts of autumn. It never looks untidy, as the dozens of newly opened flowers prevent the faded ones from becoming prominent. The plants reach a height of 8 to 10 inches and with plenty of room for development may have a spread as much as 2 feet by the end of the season. The flowers are produced in great profusion, literally hundreds being open at a time. *Linearis* is an extremely valuable addition to the list of plants suitable for border or edging use and is excellent for window boxes or in any part of the garden where a dwarf growing plant with brilliant coloring is desired. It will start flowering about 6 weeks after seed is sown.

Rose Cardinal —Brilliant Rosy Red.....	.15		.50	1.25
White15		.50	1.25

CARNATION (Enfant de Nice)

One of the best annual Carnations. Plants are strong, robust growers bearing flowers 2 1/2 to 3" in diameter on good stiff stems. Do not expect over 75% to come true to color and 90% double flowers.

	Tr. pkt.	1/4 oz.
White	\$.50	\$3.00
Salmon	.50	3.00
Rose	.50	3.00
Red	.50	3.00

CELOSIA PYRAMIDALIS

Flame of Fire (New)—Fine dwarf type, fiery red	.50
Feather—Similar to Flame of Fire, but taller and with somewhat smaller plumes more freely produced	.40
Golden Feather—Habit same as Fiery Feather, but with golden yellow plumes	.50
Wide of Castle Gould—3 to 4 ft. Mixture of yellow, orange and red shades	.50

Improved Cristata

Dwarf Golden Yellow	.30
Dwarf Empress—Deep scarlet, bronzy green foliage	.25

CENTAUREA (Dusty Miller)

For Borders, Vases, Baskets, etc.

Albidissima. Silvery Gray foliage	.25	1.50
Pyramocarpa—Fine silvery foliage	.20	.50

CENTAUREA CYANUS (Cornflower)

Popular free-flowering annuals. Now largely grown under glass for Mother's Day sales, also for Decoration Day.

	Tr. pkt.	Oz.	1/4 lb.
Blue Boy—Excellent for forcing	\$.15	\$.40	\$1.25
Pinkie	.15	.40	1.25
Rose	.15	.40	1.25
White	.15	.40	1.25

CENTAUREAS (Various)

Americana—(Basket Flower) A splendid variety growing 3 ft. high and bearing immense thistle-like blooms of a rosy-lavender color. Splendid for cutting	.15	.50
Suaveolens—(Yellow Sweet Sultan or Grecian Cornflower) Very showy large bright yellow flowers; sweetly scented and a popular sort for cutting; lasting well	.15	.45

CHRYSANTHEMUMS (Annual)

Another group which is finding favor with florists for cut flower material. Chrysanthemums last remarkably well as cut lowers, but for best results, keep them in water for 24 hours before marketing.

Eastern Star—Light Yellow	.15	.45
Eldorado—Bright yellow with dark brown disc. One of the best	.15	.45
Morning Star—Primrose Yellow	.15	.45
Evening Star—Sunflower Yellow	.15	.45
Northern Star—Pure White	.15	.45
Zebra—The Petals have Mahogany Red tips changing to brilliant yellow towards the center.	.50	

CLARKIA (Elegans Double)

Attractive cut flower. Sow in January, grow on in a flat or shallow raised bed and keep on dry side.

Albatross—The best white		
Brilliant—Bright deep rose. Very good color		
Enchantress—Light salmon-pink		
Firebrand—Fairly deep scarlet		
La France—Light salmon-pink		
Orange King—Large, fully double orange-scarlet. Excellent market variety		
Salmon Queen—Medium light salmon-pink		
Mixture of above colors

Sultani Hybrids—Mixed50
Holsti Hybrids—Mixed50
Holstii Liegnitzia—Deep vermilion-red. Free-flowering50

IPOMOEA (Moonflower)

To assist in the germination of Ipomea, cut the pointed tip of each seed. Soak over night in luke warm water, placing the container in a warm position, near and not on a steam pipe. Sow immediately the next morning in the usual manner and cover seed flat with moist spaghnum moss, placing flats in a raised position over steam pipes at least six inches above.

They should germinate in this manner in 48 hours. Place in full light as soon as up.

Noctiflora (Mexicana Grandiflora)	1/4 lb., \$1.00	Tr. pkt.	Oz.
Clark's Mammoth Blue (Heavenly Blue Improved)15	.40
		.25	1.00

Clarks Blue can be used as a fine boarder plant covering close to the ground. The immense blue flowers are a good substitute for a light blue Petunia. It certainly is worth trying in this manner.

KALANCHOE

Globulifera Coccinea—A succulent pot plant that is of very easy cultivation; in form the flowers are similar to Bouvardia and in color a very bright scarlet	3 Tr. pkts., \$2.50	1.00

(Summer Cypress or Mexican Fire Bush)

Childsi—Improved Strain.....		.10	.20
------------------------------	--	-----	-----

ANNUAL LARKSPUR

GIANT IMPERIAL

Tall, upright, compact, basal branching in habit, the Giant Imperials have superseded all other types of Larkspurs for florists' and general garden use. The delphinium like spikes of double flowers, carried on stems 4'-5' long, are compactly placed on the upright growing plants, requiring only about one-half the space needed for the old stock flowered type of Larkspur.

ZINNIAS

Comparative Zinnia Flower Types

GIANT CALIFORNIA OR MAMMOTH FLOWERED

Introduced in 1926 by Bodger, the originators of worth-while Zinnias. This type has rapidly gained in popularity. The plants are taller than the Dahlia flowered type, 3 to 4 ft., with long stems which adapt it particularly for use as a cut flower. Flowers are very large and flat giving a graceful effect.

- Brightness**—Bright pink
- Cerise Queen**—Beautiful orange rose
- Daffodil Improved**—Canary yellow
- Enchantress**—Light rose, deep rose center
- Golden Queen**—Golden yellow

Double Sunburst —(New), large, golden yellow, fully double flowers50	2.00

DAISY—SHASTA (Chrysanthemum)

Alaska —Most popular of all. Large pure white blooms on excellent stems. Starts blooming in June and continues for sometime15	1.00
Avalanche —Very free blooming dwarf compact plant (2 ft. high) with large white daisies25	1.25
Diener's Strain —New development with flowers of very interesting form. They vary considerably from fully double strains, no centers, to semi-doubles and singles. Most have curled and twisted petals. Some have broad petals, others are very slender and twisted25	
Mayfield Giant —Extremely large flowers measuring three to four inches in diameter. Strong robust growth, 2½ to 3 feet tall.....	.25	1.00
Spring Margurite —Large flowers, same characteristics as the Mayfield Giants except habit of growth is six inches to a foot shorter. This variety flowers earlier in the season.....	.20	.50

DELPHINIUM PACIFIC STRAIN (Vetterle & Reinelt)

This is the finest strain of Delphinium yet introduced. From our personal observations in the field, this is and will prove the leader in Delphinium of the better types.

The flowers are immense size, well set on strong straight stems.

They do not shatter and are 60% to 80% mildew resistant.

We offer these Delphinium with confidence and pleasure.
